

VITAL PETS CLUB

Let your cat live their best life

At Roundwood Vets, we believe preventing disease is a far better way of helping your cat stay fit, comfortable, happy and healthy. That's why we've created the Vital Pets Club.

We know beyond any doubt certain actions will help improve the longevity and quality of your cat's life.

These preventative actions are cheaper than any medical or emergency care:

1. Regular vaccinations to prevent viral diseases
2. Parasite² prevention to stop killer diseases like lung worm
3. Feeding high quality cat food
4. Regular dental visits to prevent dental diseases

Sounds simple, right? But we know most cats don't get these basics. So we've created the Vital Pets Club to make sure every cat owner has easy access to the best cat care at an affordable price.

What are the benefits?

- ✓ Save money with free consults, dental assessment, insurance processing and discounts in pet shop
- ✓ Spread the cost of payments evenly throughout the year
- ✓ Vet and nurse consultations included¹
- ✓ Early diagnosis and treatment
- ✓ Improve the longevity and quality of your cat's life

Which plan is best for me?

We have three plans² available. The plan best suited to your cat is based on your cat's breed, age and lifestyle. Our healthcare team will happily talk through the options with you in relation to your cat.

	VITAL PET START	VITAL PET ESSENTIALS	VITAL PET OPTIMUM

COST PER MONTH	£24	£20.50	£71

How does it work?

A Vital Pets Club membership lasts for 12 months. All you have to do is choose the plan best suited for your cat and register via PetsApp. Then book in for an appointment with the vet and we'll create a tailored health plan for the year.

To make it as easy as possible for you, we'll also send you reminders when important health events are due, like worming or vaccinations.

Join the club

To register for the Vital Pets Club, speak to a member of the Roundwood Vets team, either in practice or on the phone. They'll help you choose the best option for you and your cat. Once you've chosen your plan, they'll send you a link³ via PetsApp. Follow the easy on-screen instructions and once completed, you can take advantage of your club membership immediately.
